CHRYSANTHEMUM NOVELTIES
For 1906.

Disseminated by Nathan Smith & Son
(Originator’s Descriptions.)

October Frost (Opah x Monrovia)—Exhibited as 11-27-04. We have in this a decided improvement on any existing commercial white, inasmuch as it combines size with earliness, being six and one-half inches in diameter, and first blooms were fully developed Oct. 7th. Its color is pure white with creamy center; substance is excellent. It seldom exceeds three and one-half feet in height, and when crown bud is taken (best bud Aug. 25th,) it averages 2½ to 3 ft. in height. C. S. A. Certificate. 50c each; $1.00 per doz.; $3.00 per 100.

Rosiere (Opah x Mrs. Coombes)—The immense blooms, seven and one-half to eight inches in diameter, are very similar to Vivian Moore in form, but deeper and more double. In color, it is a deep rose pink, never fading, a characteristic fault of most early pink scarlet, habit the heavy foliage and dwarf habit of Mrs. Coombes. If early bud is taken (Crown bud Aug. 20th to 23th is best) it will not exceed two and one-half feet in height and many plants but 2 feet with foliage to ground. The blooms are ready to cut Oct. 10th, a time when a good pink is scarce. 40c each; $4.00 per doz.; $25.00 per 100.

Crocus (Monrovia x Mrs. Harry Emerson)—Another commercial variety of special merit, having all the characteristics to make it such; strong wiry stem, well supplied with healthy foliage close to the flower, which is of excellent substance and a good shipper. The blooms are of large size and beautiful Bonnaffon yellow color. Take either bud, but crown Sept. 1st. to 5th gives best results. Height four feet. C. S. A. Certificate, scoring ninety-two points commercial scale. At its best Oct. 25th. 50c each; $5.00 per doz.; $35.00 per 100.

Lanona (Iolantha x Sarah Bernhardt)—An immense Japanese bloom, flowering at a time when large blooms are scarce. It is exceedingly artistic in build, being irregularly incurred, but not too close to detract from its graceful outline. In color it is pure white, with center petals slightly tinge with red. An important feature is its dwarf sturdy growth, rarely exceeding three feet in height; with ordinary culture the blooms will attain a diameter of eight inches. It will be especially valuable for early exhibitions, being in perfection Oct. 20th to 25th. C. S. A. Certificate, scoring ninety-two points commercial and ninety-five points exhibition scale. 50c each; $5.00 per doz.; $35.00 per 100.

Adrea (Mme. F. Perrin x A. J. Balfour)—Exhibited as 34-13-03. A loosely incurred Japanese of large size, on strong stem with small commercial. Perrin foliage. In color it is purest clear pink, with beautiful lighter reverse. Best bud is crown taken Aug. 30th to Sept. 5th. At its best Nov. 1st to 5th. C. S. A. Certificate, scoring ninety points commercial scale. 50c each; $5.00 per doz.; $35.00 per 100.

Pres. Roosevelt (Mrs. W. C. Egan x Mrs. Geo. M. Hemach—We consider it the best introduction since the year 1898, when Exhibited merited Merza. It is its equal in size, of the same sturdy short jointed growth and beautiful, being white ground, with light shell pink center and on tips of each petal, giving the entire bloom a light pink appearance and is especially attractive under artificial light. Fully developed Nov. 5th to 10th, and crown buds taken Aug. 30th to Sept. 5th, will produce the best colored blooms. C. S. A. Certificate. Silver Medal at Philadelphia and winner in class “Best American Seedling.” 50c each; $3.00 per doz.; $35.00 per 100.

Mayor Weaver (Mme. F. Perrin x A. J. Balfour)—Another Perrin seedling and an improvement both in color and size. It is perfectly double from either bud, but larger and better flowers are produced from crown taken Aug. 30th to Sept. 5th. It easily attains a diameter of seven inches and height of four to four and one-half feet. Stiff Perrin stem well clothed with heavy foliage to the flower, which is a loose Japanese incurred of a bright rose pink color with glistening lighter reverse. Mid-season, Nov. 1st to 5th. Certificate Horticultural Society of Chicago. 50c each; $5.00 per doz.; $35.00 per 100.

Tioga (Mrs. Elmer D. Smith x Merza)—In color it is a delicate creamy white, darker at the tips. The stiff stem is covered with an abundance of foliage close to the flower. Take either bud, but best from late crown about Sept. 10th. It possesses exceptional keeping qualities and will make the best as a commercial or exhibition variety, either in pots or single stem cut bloom. Early midseason, Oct. 25th. to Nov. 1st. 50c each; $5.00 per doz.; $35.00 per 100.

Venetta (Mrs. J. J. Mitchell x Mrs. Tranter)—Exhibited as 36-1-03. Briefly described as a double Mrs. Jerome Jones. Closely incurving Japanese of large size, pure white body with creamy center. It possesses excellent substance, showing a glossy finish on petals. Exceptional foliage, measuring four feet in height, and its heavy stiff stem is furnished with an abundance of foliage to the flower. Double from either bud. In perfection Nov. 15th to 25th. C. S. A. Certificate, scoring ninety points. 50c each; $5.00 per doz.; $35.00 per 100.

ROSES
"BABY RAMBLER."
(Mad. Norbert Levavasseur.)
The tremendous hit made by "Baby Rambler" the past year, makes it imperative that every florist have a supply on hand.
Its strictly dwarf and bushy form coupled with its unbounded blooming energy, cannot fail to introduce it into every door-yard and garden where Roses are planted.
As a house Rose, all that need be urged to customers is its unique and simple pot-growth, and its never ceasing bloom. Everybody knows, and admires the crimson color of its climbing parent, and Baby Rambler is just as vivid.
Pot specimens will, also, be found especially useful and popular for decorating purpose.
We have a splendid stock for this season, and offer three sizes as follows:
2½ inch pots .......................... $7.00 per 100
3 inch pots ................................ $12.00 per 100
